

EXPERIENCE

Accenture September 21, 2021 – Present
Custom Software Engineer Associate

- **Application Support Engineer | Angular**
 - Investigated, diagnosed, and resolved application defects using Azure DevOps and ServiceNow, ensuring timely fixes and improved system reliability.
 - Conducted root-cause analysis in frontend reproducing issues in test environments and validating fixes before release.
 - Authored clear defect reports, technical documentation, and troubleshooting guides to support cross-functional teams.
 - Implemented mobile build distribution automation using Azure Pipelines and Firebase CLI, enabling faster and more efficient delivery of builds to testers
- **Multiplatform Frontend Developer Angular**
 - Built responsive UI components in Angular, integrated with RESTful APIs, and modernized frameworks (Angular v15 → v20, Ionic v4 → v8) to improve performance and maintainability.
- **Full-Stack Developer (Angular & .NET)**
 - Partnered with backend teams to implement and consume .NET Core APIs, contributed to SQL Server enhancements, and supported authentication, data management, and reporting modules.
 - Contributed to .NET framework enhancements by assisting in the development of backend modules, writing unit tests, and supporting API version upgrades to align with evolving business requirements.
- **Power Apps Developer**
 - Designed and deployed business applications using Microsoft Power Apps, integrated with SharePoint/SQL Server, and automated workflows with Power Automate to streamline internal processes.
 - Collaborated with stakeholders to gather requirements and translate them into low-code solutions, ensuring rapid delivery and adaptability to evolving business needs.
- **Collaboration & Leadership**
 - Led a hybrid mobile app project, providing knowledge transfer, technical guidance, and training to teammates.
 - Worked closely with QA, Product, and Support teams to triage issues, validate fixes, and improve overall reliability.

EDUCATION

University of Nueva Caceres June 2021
▪ Bachelor of Science in Information Technology

SKILLS

- **Frontend:** Angular, TypeScript, HTML, CSS, Responsive Design
- **Backend & Database:** .NET Core, SQL Server, API integration, unit testing
- **Debugging & Support:** Root-cause analysis, defect resolution, Azure DevOps, ServiceNow, technical documentation
- **Cloud & Tools:** AWS, Azure, Firebase, Git, Postman, Visual Studio, VS Code
- **Low-Code Platforms:** Microsoft Power Apps, Power Automate
- **AI Tools:** GitHub Copilot, Claude Code, ChatGPT
- **Collaboration:** Agile teams, code reviews, cross-functional communication

OTHER

- Certifications
- Scrum Foundation (2022)
 - AWS Cloud Practitioner (2025)
 - AWS Cloud Quest: Generative AI Practitioner Training (2026)

- Professional Development
- Cloud computing
 - Backend Development (.Net, node.js & SQL)
 - AI & Automation
